

Covid-19, Just Lets and our clients

Just Lets have put into place the COVID safe working practices set out in the recent Government advice in order to make our offices as safe as possible so that we can re-open for business.

The office will be manned in the afternoons as of 18th May 2020 and then from 9:00 until 5:00 from June 1st. Please contact the office prior to attending; it maybe that we can deal with your enquiry without you having to make the journey. If you do need to see us we can arrange an appointment time.

If you are looking to rent view our available properties on justlets.com or onthemarket.com

Viewings and Valuations

- We won't carry out viewings or valuations if someone in the household has shown Coronavirus symptoms within the last 14 days or if there is someone high risk living at the property
- Initially, where possible we will carry out a virtual meeting / viewing
- In order to make sure that you will be successful in your application should you wish to rent a property, we are asking for a pre-reference to be carried out before viewing
- We request that viewers wear gloves and face-coverings when viewing
- We will follow the 2m social distancing rule
- We request that only 2 members from one household attend and unless absolutely necessary, no children
- We will keep a record of all visits and who attended. If a member of staff subsequently tests positive for Coronavirus we will inform any relevant parties
- If a property is occupied, we ask that the occupier open all doors and cupboards prior to the visit; and wipe/clean down surfaces before and after
